Oxygen Saturation and Therapy

Do you use supplemental O2 therapy? 

If Yes, then please answer these questions.

When do you use supplemental O2? Mark all that apply.

How long have you used supplemental O2? 

On a typical 24-hour day, how many hours do you use supplemental O2? 

Resting SaO2 

Heart rate 

Note: If SaO2 = 100, then enter 99.

Note: If HR is greater than 120 bpm, then contact the physician investigator before you proceed with administering albuterol or the walk test.
